### COMPUTER TOOLS

- Python
- C/C++/C#
- Arduino C
- HTML
- CSS
- JavaScript
- VB
- Micropython

### EMBEDDED ENVIROMENTS

Arduino ,ESP32 , Raspberry  
Pi Pico W

### MASTERED SOFTWARES

- Microsoft Office
- Matlab
- Arduino IDE
- ISIS Proteus
- Eagle
- PSIM
- SIMATIC STEP 7

### INTERESTS

- Football
- Robotics

### LANGUAGES

- Arabic - Native
- English - B2
- French - B1

### PROFILE

I am a motivated student specializing in Electronics and Industrial Computing, with a strong passion for robotics and innovation. I thrive on hands-on projects that challenge me to develop my skills and explore new technologies. Through my academic journey and personal initiatives, I have worked on various projects that reflect my commitment to learning and my drive to contribute to impactful solutions. I am now seeking a PFE internship to apply my knowledge, further enhance my expertise, and grow professionally in a dynamic and innovative environment.

### EDUCATION

- **Bachelor in Electronics, Electrotechnics and Automatics , Specialty electronics and industrial computing**

Faculty of Sciences of Gabes

- **High School Diploma , TECHNOLOGY**

Elguettare Institute

### EXPERIENCES

- Trainer in Robotics and Web Development

Conducted hands-on workshops, teaching programming and practical applications in robotics and web development skills to participants.

- CHAIR TECH-TITANS Robotics Club
- Member of Alliance Of Engineers ENIG
- Head HR of tech-titans robotics club
- IEEE Membre

### CERTIFICATION

- Robotics and Arduino Monitoring
- Esp32
- Raspberry Pi Pico W
- automation and industrial computing
- web development [ HTML - CSS - JS - BOOTSTRAP ]
- IA and Computer Vision [ in progress ]

### PROJECTS

- smart home
- smart tank controlling system
- smart plant oled screen monitoring
- smart convoyer system
- smart door
- line follower Robot
- all terrain Robot
- Controlling a robotic hand
- Web developement project :
